# HANG STRING LIGHTS ANYWHERE

## PERFECT FOR:

Indoors • Outdoors • Backyards • Weddings • Events • Restaurants

## INSTALL ANYWHERE

Wooden Decks • Concrete Patios • Grass, Sand or Gravel • Indoors

## WHY CHOOSE IYN STANDS?

**DURABLE  
POWDER-COATED  
STEEL**  
BUILT TO WITHSTAND  
HARSH WEATHER

IYN STANDS ARE STRONGER *and* STRAIGHTER  
THAN THE COMPETITION

## WHICH SOLUTION IS BEST FOR YOU?

► POLE STAND *with*  
MOUNTING BRACKETS

► POLE STAND  
*with* TANK BASE

► POLE STAND *with*  
MOUNTING PLATE

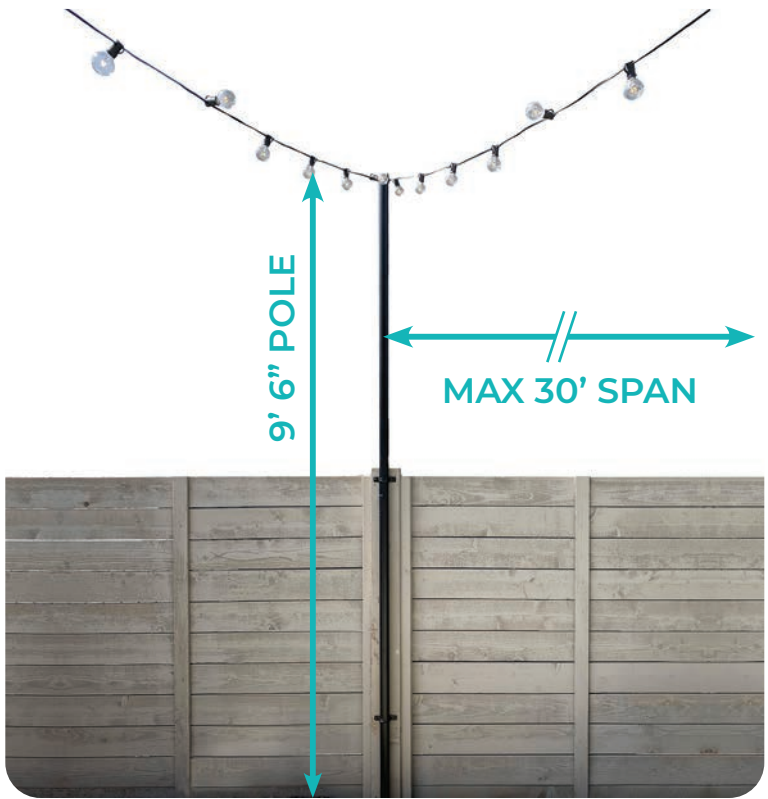

# POLE STAND *with* MOUNTING BRACKETS

SKU #32374

## ATTACH TO FENCE POSTS OR RAILINGS WITH TWO BRACKETS AND SCREWS.

Pole Stands with Mounting Brackets are perfect for attaching to a fence post or railing using our brackets that offer ample extension for bypassing the top cap of a fence post or the edge of a railing. Brackets and installation hardware included.

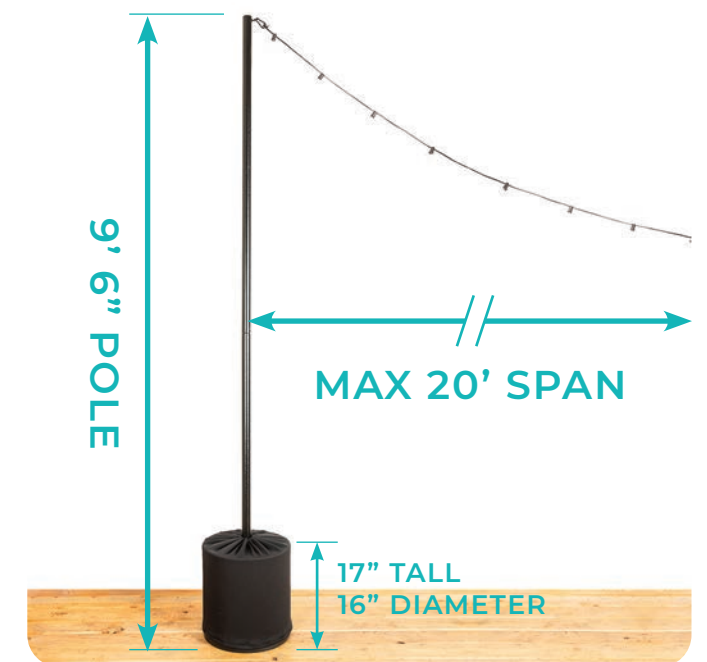

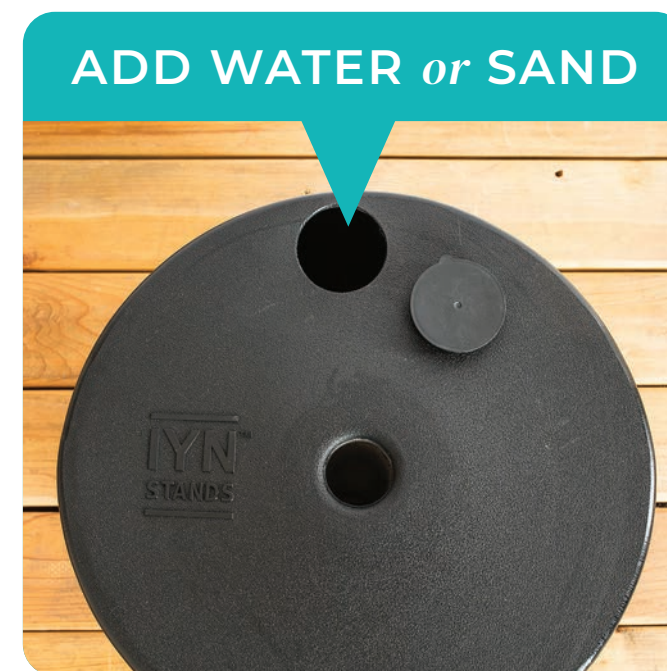

# POLE STAND *with* TANK BASE

SKU #32384

**FILL TANKS WITH SAND OR WATER AND SET THEM ANYWHERE, OUTDOORS OR INDOORS.**

A Pole Stand with Tank Base is freestanding and can easily be set up with no hardware or mounting required. The tank stand is filled with water or sand and can be placed anywhere, outside or inside. *(Up to 20ft spans with recommended lightweight G40 string lights.)*

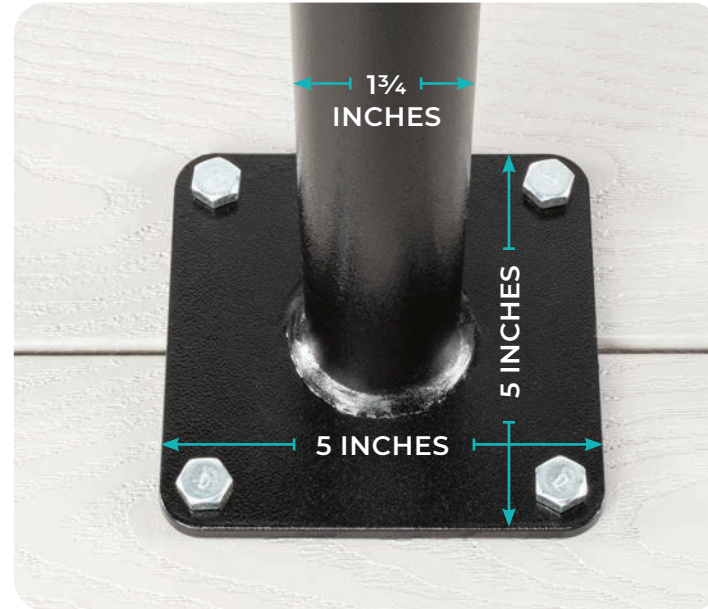

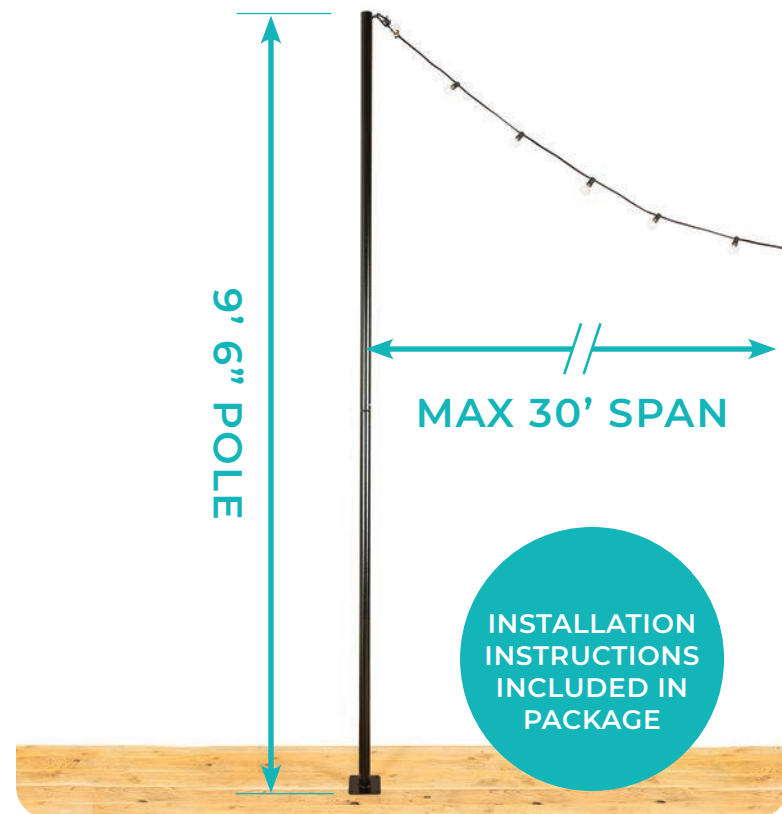

# POLE STAND *with* MOUNTING PLATE

SKU #32378

**SECURELY BOLT OR SCREW INTO YOUR WOODEN DECK OR WEDGE ANCHOR INTO YOUR CONCRETE PATIO.**

Pole Stands with Mounting Plates are the ideal solution for screwing or bolting to wooden decks or wedge anchoring into concrete patios. Installation hardware sold separately.

A 5 INCH STEEL BASE PLATE CONNECTS TO WOOD DECKING OR CONCRETE

WOOD DECKING: USE 3/8 INCH-16X2 1/2 INCH BOLTS, NUTS AND WASHERS

CONCRETE: USE 3/8 INCH X 3 INCH WEDGE ANCHORS

#### Perfect stands for indoor/outdoor

It's the most convenient stand I've seen. Easy to install, effectively holds string lights. The base, if filled with sand is heavy so don't have to worry about the pole.

*Venkata A.*

#### Love our light poles!

We originally hung bistro lights with pressure treated cedar. By the following morning, the wood was bending due to the weight. After researching options online, I came across the IYN Stands light poles. After ordering, the poles arrived quickly. We love the powder-coated poles that look much more elegant than the wood we originally installed. They work exactly as hoped. Thank you!

*Michelle S.*

#### Better than expected ...Worth the \$\$\$\$

Fantastic Patio Light Solutions - Durable and Stable ...Commercial Grade for sure

*Josephine R.*

#### Pole stands

These poles are outstanding. I could not be happier with my purchase. Very fine quality. I would certainly recommend buying these.

*Frederick F.*

#### Sturdy solution for concrete slab patio

I needed something sturdy living in flat Illinois where the wind always blows. After consulting with a IYN specialist, I decided to go with anchoring in the concrete slab. I'm amazed how sturdy it is. I bought plastic planters, cut a hole in the center and slid down over the poles to add decor. Very pleased with how it turned out.

*Mark R.*

#### Perfect string light solution!

Poles are sturdy and have clips at the top to hold the light strings, very handy. Well worth the cost!

*Kristina L.*

#### Love the product!

We bought our Pole Stand about a month back. The assembly was easy and intuitive. And most importantly, our stands provide the perfect solution to hanging our string lights in our back patio.

*Hank K.*

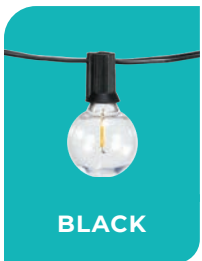

# LED STRING LIGHTS

Black SKU #32432 | White SKU #32431

## OUR LED G40 BISTRO STRING LIGHTS ARE THE PERFECT COMPANION TO IYN STANDS.

With their clear, shatter-resistant plastic bulbs and warm white LEDs, these bistro-style string lights complement any indoor or outdoor space. The 25 ft strand of 25 bulbs is weather-resistant in rain or snow. Available in black or white.
