

SOJI™ STELLA NOVA PENDANT LAMP

NEW! The Soji™ Stella Nova pendant lamp is unlike anything else on the market. Inspired by the ever popular, one-of-a-kind, outdoor Soji™ Stella solar lanterns, the Stella Nova collection presents the same unique ornate punched patterns, yet can be used both indoors and out (120V plug). Hand-made from weather-proof Tyvek®, the Stella Nova is durable enough to double as an outdoor pendant lamp, yet is sophisticated enough to be brought indoors to add beauty to any room. Enjoy the elegance of Soji™ Stella Nova in your favorite spaces all year round. Sold with 15' outdoor-ready cord kit with on/off switch - UL approved. Indoor cord kit with dimmer switch available for purchase separately.
